# 207 Van

# It's the business

Model shown: 207 1.6 HDi with Hobart wheel trims

Put the 207 Van on your workforce, and we think you'll be seriously impressed. One look at its clean profile, dynamic lines and strong, iconically Peugeot front grille instantly tells you it means business. Get behind the wheel and you'll

know it means business. Sure-footed handling and all the performance you or your drivers could need means it not only delivers the goods on longer journeys, but it's also exceptionally manoeuvrable around town. With a choice of one economical petrol and two clean and efficient

HDi diesel engines, the 207 Van respects the environment as much as it does your bottom line. And you can be reassured that it also comes equipped with a full line-up of active and passive safety systems to take care of your team when they're out on the road.

### Practical

The 207 Van has been engineered to make working life as easy as possible on its driver. Its ergonomically designed interior means everything you need is in easy reach. The height and reach of the steering wheel are both adjustable to ensure the best possible driving position, while variable power steering makes manoeuvring around city streets less tiring. And the big boot and flat load space make it easy for you to pack more into your deliveries.

### Economical

The 207 Van is a highly efficient worker. Low fuel consumption, reasonable insurance premiums and sensible service bills keep your running costs down, while the intelligent application of design means that any unexpected repairs may also cost less than you might think.

### Safe and secure

As you might expect from a Peugeot, the 207 Van sets the benchmark for safety thanks to its exceptional road-holding, responsive steering and stability under braking. And to make it as hard as possible for someone else to drive off with your goods, it's equipped with a sophisticated engine immobiliser and automatic door locks.
