

SIMPLY CLEVER

Škoda Octavia Tour

The **Octavia Tour** is one of Škoda Auto's most successful models in the company's history. The car has won the favour of more than one million drivers across many countries since its introduction to the market in 1996. Some are charmed by its timeless design while others are convinced by the outstanding value for money. Families praise the car's reliability, safety and large luggage compartment while business people treasure its versatility. In short, the Octavia Tour is able to satisfy the widest range of demands. In addition, you can adapt it to your needs and lifestyle thanks to the extra equipment.

The **front grille** with its traditional vertical ribbing gives the vehicle an expression of reliability and respectability, while also clearly identifying the car as a Škoda.

Fog lamps are integrated into the main **headlamps** with clear optics, the design of which underpins the car's dynamics and power.

The **roof spoiler** adds a sportier style to the Combi model's elegant design (part of the sports package).

The **5th door spoiler** is intended for the liftback version, giving the vehicle a sportier look while also highlighting its excellent aerodynamic qualities (part of the sports package).

Rear parking sensors located in the rear bumper facilitate easy parking in even tight spaces.

The **decorative exhaust tailpipe** enhances the dynamic and robust appearance of the rear of the car (part of the sports package).

The **SunSet windows**, with a higher density of tint in the rear part of the Combi model, protect the passengers and their luggage from sunshine, while also offering a higher degree of privacy. A **roof railing (lengthwise)**, standard equipment also intended exclusively for the Combi version, allows the attachment of special carriers for skis, bikes or luggage boxes.

The **mid-level luggage compartment floor** of Combi cars offers ideal hidden storage space.

The **front passenger airbag deactivation indicator** located in the ceiling light is an exceptionally important detail if you fit a child seat to the front passenger's seat.

The **Octavia Tour** is a remarkably pleasant vehicle for drivers and passengers alike. You will feel at home behind the wheel starting with the very first kilometres you drive. The simple elegance and functionality of the **instrument panel** give the impression of maximum clarity. All controls are within easy reach, and necessary information (speed, revolutions etc.) is in the driver's field of vision. Drivers who want to have additional travel information such as journey length and fuel consumption under control are in luck. We offer either a **multifunctional indicator** or a large **Maxi DOT display** capable of providing the outdoor temperature, immediate and average fuel consumption, or the selected radio station.

Safety is increased by elements such as **ABS** (Anti-lock Braking System) and **driver and passenger airbags**. A **height-adjustable driver seat** contributes to comfort behind the wheel. And those who enjoy even greater comfort and safety can choose from additional accessories:

- 1. **Electrically adjustable heated external mirrors**
- 2. **Electric front windows** (electric rear windows are also available)
- 3. **Small leather package** (4-spoke steering wheel, gear stick knob and handbrake handle)
- 4. **ESP** - Electronic Stability Programme
- 5. **Symphony radio** with CD and MP3 player
- 6. **Air conditioning** with mechanical regulation (Climatronic air conditioning with electronic regulation is also available)

3-spoke leather steering wheel (part of the sports package)

Scale Grey interior

6.0J x 15" steel wheels for 195/65 R15 tyres with **Drive** hub covers

Eminent Onyx interior

6.0J x 15" **Triton** alloy wheels for 195/65 R15 tyres

Graham Onyx interior

6.5J x 16" **Knife** alloy wheels for 205/55 R16 tyres

6.5J x 16" **Spider** alloy wheels for 205/55 R16 tyres (part of the sports package)

General information

ŠKODA SERVICE

Put your car in good hands. We give you good reasons to choose an authorised Škoda service partner.

We offer you first-class quality

Your car requires advanced technology. For this reason, all the Škoda authorised service partners have special tools and quality diagnostic systems at their disposal that in combination with the technological procedures prescribed by the manufacturer ensure the perfect functionality and reliability of your car.

Professionally trained staff by the manufacturer

The ever-rising standard of the technology used in the car requires corresponding professional qualifications on the part of the staff. To meet this requirement, the manufacturer organises regular training for the staff of the authorised service partners in order to provide them with up-to-date information important for their activities.

Our motto: be fair and open with our customers

Careful, professional and friendly counselling for the customers upon acceptance of orders is of great importance to us in the same manner as diligence and completeness with respect to repairs and maintenance work. All this is continuously monitored by internal quality control of the provided services.

Comprehensive range of services:

• Service inspections

For your car to remain in top condition and functional for a long time and, optionally, not to forfeit warranty, it is essential for your Škoda authorised service partner to perform regular service inspections. The service schedule informs you when the service inspection must be done.

• Body and paintwork service

Damage to the body and painted areas following an accident will be fixed by your authorised Škoda service partner in an expert manner, in accordance with information from the manufacturer, using Škoda genuine parts. This is important not only for your safety, but also for functionality and maintaining your car's value.

• Courtesy car

The authorised Škoda service partner can provide you with a courtesy car for the period of repair or service inspection.

• Pick-up and delivery service

If you are unable to take your vehicle to a Škoda service, an authorised Škoda service partner will arrange a date with you to pick up the car. The car will be delivered back after the service work has been completed.

The listed services represent only a part of the wide range of Škoda service offers, which may vary from country to country. Please contact your authorised Škoda service partner for further details and information on the range and specific conditions of services they offer.

ŠKODA GENUINE ACCESSORIES

Škoda Genuine Accessories offer you child safety seats, roof rails, alloy wheels, sunblinds and more. For more detailed information on the complete Škoda Genuine Accessories range see the individual Škoda model catalogues.

ŠKODA GENUINE PARTS

Safety

Škoda genuine parts are identical to those used during the assembly of Škoda vehicles. The use of first-class materials and technologies guarantees safe and worry-free driving.

Availability

Škoda Auto offers a comprehensive range of parts and equipment items that are used in the vehicle's batch production and does not merely focus on high-turnover parts. Škoda ensures the provision of genuine parts even after the relevant model is discontinued.

Long service life

The use of first-rate materials and production technologies in the manufacture of Škoda genuine parts ensure their maximum reliability and long life.

Environment protection

The Škoda Genuine Parts range includes exchange parts whose production has a low environmental impact in terms of waste, excess heat and water pollution.

INFORMATION ON THE INTERNET

Information is available at www.skoda-auto.com to assist you in deciding which vehicle suits your needs, thanks to the detailed descriptions and photographs of all our models.

ŠKODA FINANCE

ŠkoFIN offers solutions for both individuals and businesses. You can learn about the current offer through any authorised Škoda partner. The credit or lease contract can also be concluded online directly with the car dealer.

GLOBAL FLEET

The Škoda Auto Global Fleet Services offer B2B fleet solutions to customers with all kinds of requirements. A fleet made up of Škoda cars offers unmatched roominess, long-lasting quality, safety, low total costs of ownership and, as a result, excellent value for money. You can find more information about our products and services at www.skoda-auto.com/fleet.

One of the most important goals of Škoda Auto is the development and production of products that are as environmentally friendly as possible throughout their life cycle phases, placing principal emphasis on the selection of recyclable materials. Our Škoda cars are manufactured using progressive types of technology in modern production facilities that meet the strictest criteria. Anticorrosive protection of the cars' painted parts is based exclusively on lead-free cataphoresis (KTL) and water-soluble paints.

Our company strategy includes limiting fuel consumption and emissions. As a result, the engines of Škoda Auto meet the current emission regulations. We also offer diesel engines with Diesel Particulate Filters (DPF). All products made by Škoda Auto adhere to the laws and regulations concerning the protection of soil and water. As a result of these activities, Škoda cars meet technical, safety, quality and environmental requirements. Škoda Auto contributes to the preservation of a clean environment and provides mobility and comfort to its customers.

The environmental logo expresses Škoda Auto's awareness of, responsibility for and attempts at the sustainable development of the company and a friendly approach to life and nature.

Some models in this catalogue are shown fitted with extra equipment not necessarily included in the standard equipment. All details of technical specifications, design, equipment, materials, guarantees and appearance were accurate at the time of going to print. However, the manufacturer reserves the right to make any changes (including changes of technical parameters or individual model equipment). Please consult your authorised Škoda partner for further details on standard and extra equipment, current prices and delivery terms and conditions. This catalogue was printed on cellulose paper which was bleached without using chlorine. The paper is 100% recyclable.
