ANTI-LOCK BRAKING SYSTEM

DUAL AIRBAGS

Now, every power drive comes with added safety. The Indica has always been known for its enviable safety record. It has been tested according to European standards for full-frontal, offset-frontal and rear crash for passenger survivability and its rigid monocoque steel frame forms a protective shell.

Now simply add all this, along with Dual Airbags (driver and passenger) and ABS (Anti-lock Braking System) and you now have a car that's potentially the safest one on Indian roads. We value your life and that of your family in every product that we design. However, we still urge you to drive safely, drive responsibly.

Anti-submarine seats | Side-impact beams | Front crumple zone | Collapsible steering column | Energy absorbing bumpers | ELR type seat belts
ABS and Airbags are available as an option on the DLX Turbo
