Spoil yourself

The new Indigo DICOR now offers you more than just the style, comfort and performance of a luxury sedan. It brings you an outstanding technology - DICOR or **D**irect **I**njection **C**ommon **R**ail - that sets the benchmark for diesel cars worldwide. The silent, 32-bit microprocessor based 1.4 litre, 70 PS engine with a high torque of 140 Nm is the most contemporary diesel engine technology you'll find, featuring high pressure multiple injections, use of hydraulic and low friction mechanisms ensuring better combustion and improved fuel efficiency. A 16-valve superior engine, with Dual Over Head Camshafts, considerably boosts power output whereas the Variable Geometry Turbocharger (VGT) minimises the turbo power lag at a lower RPM for improved driveability. The new dual beam clear lens headlamps, large top-down tail lamps and ORVMs embellished with chrome strips, announce your arrival in style. With anti-submarine seats, high quality cabin insulation, and a 3-link rear suspension, you can enjoy all the comforts of business class travel on the move.
